

TREMENDOUS DRIVE STARTED BY BRITISH

Following Terrific Bombardment For An Hour and a Half Over a Front Covering 20 Miles They Launched Infantry Attack and Swept Over the German Front Line

ATTACK IS DEVELOPING WITH FIERCE INTENSITY

Already the British Have Captured Many Prisoners and Their Own Losses Have Been Comparatively Light, According to Official Report From British Headquarters—French Join in the Movement

British Headquarters in France, July 1.—A tremendous British offensive was launched at half past seven this morning over a front extending 20 miles north of the Somme. The assault was preceded by a terrific bombardment. The British troops already have occupied the German front line and have captured many prisoners. The bombardment lasted an hour and a half.

It is too early as yet to give any but the barest particulars of the fighting, which is developing in intensity. The British casualties so far have been comparatively light, according to the official report.

Simultaneously with the launching of the British offensive, the French infantry advanced to the attack over a section of the French line adjoining the junction with the British front.

The artillery bombardment of the past few days was concentrated this morning with a degree of fury and with a number of guns unprecedented in the region of Albert and the river Somme, with the French co-operating to the south.

At 7:30 o'clock, through clouds of smoke and dust which hung over the field so far as the eye could see, infantry sprang from their trenches for the assault. The new British trench mortars, which fire 35 shots per minute, played a great part, cutting the wire entanglements and destroying the trenches. The prisoners taken say that the British curtains of fire prevented them from getting food during the last five days.

The allies are now on the offensive on virtually every field of the war. The British assault comes on the heels of great successes by the Russians in Galicia and Bukovina, which have resulted in completely driving the Austrians from Bukovina and are still continuing. On the Italian front, the central powers have also met with severe reverses and for several days the Italians have been steadily driving the Austrians from position after position in the Trentino. The defense of Verdun by the French also appears to have stiffened and the balance of the battle in that sector seems recently to have swayed in favor of the defenders.

The only front in the whole war theatre where comparative quiet reigns to-day is in the Balkans, and the predictions of the allied advance in that region have been numerous recently. There have been several minor indications of portending raids and efforts by the Bulgarians to strengthen their lines by the occupation of fortresses on the Greek frontier. The newspaper correspondents at Saloniki have estimated that the allies have a total of 600,000 to 700,000 veteran soldiers concentrated in their lines in that district, while the highest estimate placed on the Bulgarian forces, which must oppose them, is between 300,000 and 400,000 men.

DEATH STRUGGLE ON VERDUN FRONT GROWS FIERCER

French and Germans are Taking Positions and Losing Them All Within the Period of 24 Hours—Nancy Bombarded By German Guns.

Paris, July 1.—After four violent attacks with liquid fire, the Germans succeeded in capturing a position east of Hill 304, which was taken by the French yesterday. The French made a counter attack and recaptured the position, according to an official statement. After several furious assaults the Germans succeeded in penetrating the works around Thiaumont, captured previously by the French. The approaches to Thiaumont are still in the hands of the French.

On the west of the Meuse fighting of great violence lasted throughout the night in the neighborhood of the Etupes. Avocourt road. The Germans attacked heavily both east and west of Hill 304, but most of their attacks were repulsed. Nancy was bombarded by German long range guns.

RUSSIAN FLEET WITHDRAWN.

After German Attacking Squadron Had Been Reinforced.

London, July 1.—A despatch to Reuters Telegram company from Stockholm says that steamers which have arrived in port witnessed a battle Thursday night 15 miles south of Landsort, south of Stockholm.

They report that a Russian squadron with a few torpedo boats and torpedo boat destroyers was attacked by a German fleet comprising cruisers and large warships. At the outset the Germans

were unable to defeat the Russians, but eventually reinforcements were obtained and it is supposed the Russians withdrew northward.

The correspondent adds that nothing was visible from the coast of the reported battle, owing to the fog, but that gun firing was heard throughout the night and at 6 o'clock yesterday morning a fresh and violent cannonade began.

Using Olive Oil. Most of the best tonic and beauty preparations we have come directly from nature. To be sure, they all come from nature originally, but some of them in a pretty roundabout form—as you would appreciate if you could see the preparation of some of the beauty stuffs on the market.

One of the best is olive oil, just the rich, golden oil that drips from the olives grown on the sunny hillside of Italy. As an internal tonic there is nothing to excel it. It feeds the body, enriches the digestion and makes the skin a rich, clear color.

Externally it goes into the pores of the skin, feeding them, cleansing them of dirt and grit, nourishing them. The best way is to take olive oil both ways, as a food and tonic and as a beauty treatment. You should eat plenty of salads, made with a rich dressing or mayonnaise of olive oil, you should take a tablespoonful of it before meals, drinking a bit of claret or grape juice if the oil is distasteful.

You can rub it over your whole body, be anemic. Many under-nourished babies are saved from illness and possible death by being rubbed each day with olive oil. It is a pity more mothers of delicate babies do not know this. The oil is a wonderful food.

Best of all, it is so delicate in itself that it will not upset even the most delicate digestion. If you do not like the actual oily taste, the grape juice or the wine will overcome this and in a few weeks you will become quite accustomed to it. In a little while more you will begin to enjoy the rich, smooth flavor of it.—Boston Journal.

"Cordially and sincerely yours,

"Woodrow Wilson."

A Newspaper Poem that Has Been Quoted Ten Thousand Times.

In the June American Magazine is an account of Arthur Chapman, a Denver newspaper man, whose poem, entitled "Out Where the West Begins," appeared in the Denver Tribune in 1910. "Chapman has been reminded of his poem ten thousand times since. For the verses were just starting on the grand tour that has made them the most popular bit of fugitive verse since Riley was in his prime. The New York Sun, which has always had an eye alert to the merits of Chapman's column, ran next week 'Out Where the West Begins.' Since then almost every paper of consequence in the country has reprinted the famous little poem.

"The verses have crossed the Pacific to Australia and Hongkong, and the Atlantic to England. All over the West, as campaign material, high school boys declaim it when they are graduated, and elocutionists fling it at the head of their audiences. Enterprising firms have got it out on their advertising as souvenirs. You may pick it up on postal cards at curio stores and find it on sofa pillows and birch bark ornaments."

HEADQUARTERS IN BURLINGTON.

For Vermont Association of Tuberculosis—More Active Work Planned.

Burlington, July 1.—Dr. Charles F. Dalton, secretary of the state board of health, announced last night that arrangements had been completed for having the permanent headquarters of the Vermont Association of Tuberculosis at the office of the state board of health in Burlington. This arrangement will save the association the expense of office rent and also make possible the closest cooperation with the state board. The secretary of the association will also be an employee of the state board of health and have charge of the tuberculosis department. The association will be, in fact, but an increasing of the activities of the board of health against this disease by the addition of local chapters in every town and the voluntary contributions of the people of the state. The task of securing charter members of the association who will pay a membership fee of one dollar is still going on. Every mail brings in a number of new members, although the total is still far short of the mark set for starting the association. Next Friday afternoon at 2 o'clock at the health officers' school in the high school auditorium the plan of the association will be presented to all of the health officers of the state, and they will be invited to help by securing new members in their respective towns. At this meeting Dr. Charles J. Hatfield, secretary of the National Association for the Prevention of Tuberculosis, will be one of the speakers.

ARE STILL SEARCHING FOR 2 SECTION MEN; DENNEHY IS ALIVE

Montpelier Authorities Now Incline to Believe That Dennehy and Riley Quarreled with the Italians and That Dennehy Was Shot By One of Them.

The condition of John Dennehy, the Haverhill, Mass., boy who was shot at Montpelier Junction by an unknown person Thursday night and whose name has been on the dangerous list at Heaton hospital, was reported this forenoon to be about the same. The doctors do not hold out any hope for his recovery, however.

The officials are not inclined to believe that Riley, the injured youth's pal, had anything to do with the shooting and efforts will be turned to getting hold of two Italian section men. It is thought probable that Riley and Dennehy had been drinking and that they caused some disturbance, causing the Italians to shoot. It is said that tramps have followed the custom of breaking into shacks at the junction and stealing articles.

23,000 TROOPS ARE ON FJAD TO MEXICO

WAR LAST RESORT, DECLARES WILSON

United States Will Not Declare It Until Other Alternatives Have Been Exhausted in Disagreement with Mexico.

New York, July 1.—President Wilson made it plain in his speech at the New York Press club banquet last night that he will not countenance a war with Mexico until there is no other alternative for settling the border troubles.

Again he declared that he was ready to sacrifice his own political fortunes in order to carry out his convictions as to what would be the just course to pursue in the situation.

The president's audience, composed of newspapermen, state and municipal political leaders and other prominent in public life, signified their endorsement of his position by repeated outbursts of applause. When he asked if the glory of America would be enhanced by a war of conquest in Mexico, shouts of "No!" came from all parts of the banquet hall. A similar response was made to his query whether it is America's duty to "carry self-defense to the point of dictation into the affairs of another people."

While 50,000 More Are in the Mobilization Camps in the Department of the East, According to the Official Reports—They Will Start in Two Weeks

RIGID CENSORSHIP ON TROOP MOVEMENT

Military Training Camp at Fort Oglethorpe, Ga., Discontinued, and All Candidates Will Be Admitted to the Plattsburg Camp—A Great Crowd Is Expected There

New York, July 1.—The surrender of the 10th cavalry troops taken by Carranza soldiers in the Carrizal encounter will not interrupt the movement of National Guard troops to the border, Major General Leonard Wood, commanding the department of the East, was informed yesterday by the war department.

General Wood received the order over the long distance telephone. He was instructed to continue the dispatching of troops according to the order issued June 23, which states that units must be sent to the border as quickly as they are prepared.

General Wood also was ordered to institute a rigid censorship concerning future movements of all troops within his jurisdiction. He was particularly instructed to prohibit the publication of the ultimate destination of the soldiers.

It was announced at the divisional headquarters last night, however, that the number of troops now on trains racing to the border has increased to 23,000. The number was largely increased by the reported departure of a complete brigade of infantry and other units from Pennsylvania.

According to the official reports there are more than 50,000 troops in mobilization camps in the department of the East. Of this number approximately 33,000 have been mustered into the service of the United States and are awaiting marching orders. The remainder will not be able to leave for perhaps two weeks because of lack of training and equipment.

Approximately 10 brigades of infantry and their complementary units are yet to receive the approval of the United States mustering officers. They include two Pennsylvania brigades, two New York brigades, one District of Columbia brigade, one Maryland brigade, one Kentucky brigade, one Georgia brigade, two Tennessee regiments, and one regiment each from Florida, Mississippi, Alabama and New Hampshire.

Captain Gordon Johnston, chief aide de camp to General Wood, made public last night an order discontinuing the military training camp at Fort Oglethorpe, Ga., and announcing that all candidates for Fort Oglethorpe will be admitted to the Plattsburg camp.

An excerpt from the order reads: "Small enrollment for the July camp at Fort Oglethorpe and the fact that over 13,000 men are expected at Plattsburg have made it necessary to concentrate all efforts on the latter."

AMERICANS ACCUSED OF MANY CRIMES BY MEXICANS

Carranza's Foreign Office Issued Statement Also Declaring that United States Has No Right to Keep Troops in Mexico.

Mexico, July 1.—The foreign office yesterday issued a memorandum in reply to Secretary Lansing's recent note in which the correctness of assertions in the communication from Washington were repeatedly denied. The memorandum declares that the United States has no right to maintain its armed forces on Mexican soil.

Emphatically reiterating the Mexican government's position denying the right of the United States to keep armed bodies in Mexico, the memorandum denies energetically that the Mexican government has protected bandits who had committed depredations in the United States and defies Washington to produce proof of the assertion.

Blame for the Santa Isabel massacre is placed on the so-called impulsive and irascible disposition of Charles Watson, general manager of Cushman's company, and General Scott and General Funston are accused of bad faith and lack of honor in misleading General Obregon in an alleged evasive reply regarding the crossing of American troops into Mexico after the Glenn Springs raid.
